Process Overview

The Oracle iSupplier portal is a collaborative application that enables suppliers and the buying companies to communicate with each other. It provides suppliers real-time access to information, such as Purchase Orders (PO) and delivery schedules. Using this portal, suppliers can respond to a buying company with order acknowledgments, change requests, shipment notices, and other planning details.

The Oracle iSupplier module also allows the supplier to accept Purchase Orders, request changes to Purchase Orders, create Advanced Shipment Notifications, Create Invoices, and view status and payment information on submitted invoices.

Process Map

This section provides a step-by-step flow of the entire business process. Each process step has an associated process step number.

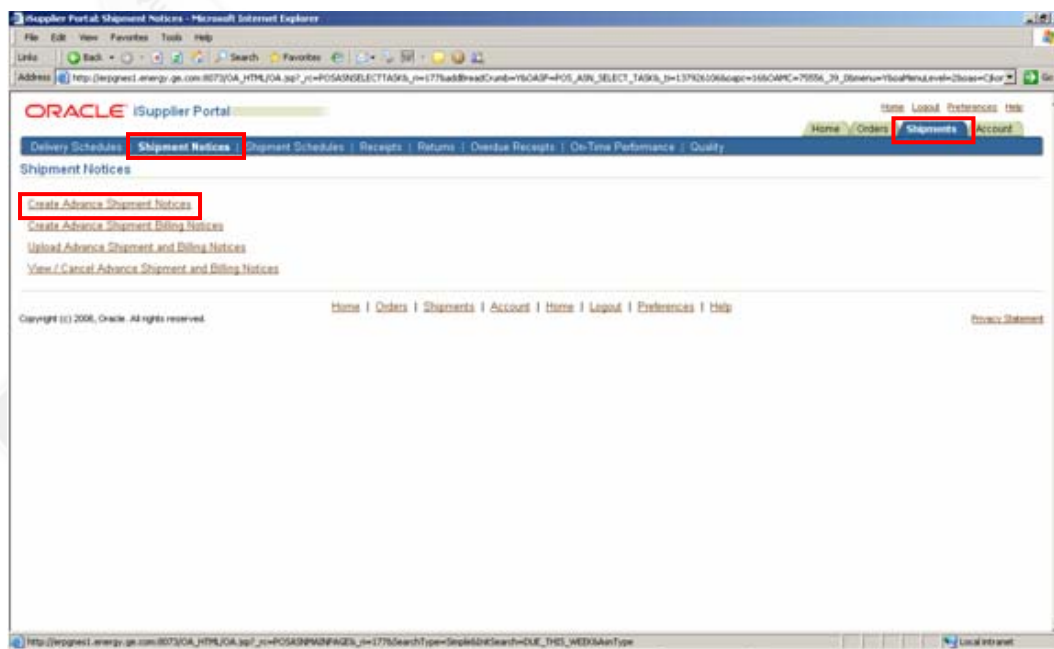

1.1 Create an Advanced Shipment Notification

1.1.1 Click the Shipments tab. The Shipment Notices window is displayed.

1.1.2 Click the **Shipment Notices** link.

1.1.3 Click the **Create Advance Shipment Notices** link. The Create Advance Shipment Notice window is displayed.

1.1.4 Click the **Add to Shipment Notice** button.

The screenshot shows the Oracle iSupplier Portal interface. At the top, there are navigation links: Home, Orders, Shipments, Account. Below that, a breadcrumb trail reads: Delivery Schedules > Shipment Notices > Shipment Schedules > Receipts > Returns > Overseas Receipts > On-Time Performance > Quality. The main heading is "Create Advance Shipment Notice". There is a "Views" section with a dropdown menu set to "Shipments Due Any Time" and an "Advanced Search" button. Below this is a table of shipment notices. The table has columns: Select PO Number, Line, Shipment, Supplier Item, Item Description, Due Date, Quantity Ordered, Quantity Received, UOM, Ship-To Location, and Organization Name. A red box highlights the "Add To Shipment Notice" button located above the table. The table contains several rows of data, including items like "Safety item" and "COMMERCIAL ITEM".

Select PO Number	Line	Shipment	Supplier Item	Item Description	Due Date	Quantity Ordered	Quantity Received	UOM	Ship-To Location	Organization Name
437000036	1			Safety item	10-Apr-2007 02:00:00	20	6	EACH	Wilmington, NC, US	OU_NE_US
437000052	1			Safety item	12-Apr-2007 02:00:00	12	0	EACH	GE.H.I.L.L.C. BRIDGEVILLE	OU_NE_US
437000044	1			Testing item for the Telet Session	14-Apr-2007 02:00:00	10000	12	EACH	GE.H.I.L.L.C. WILMINGTON	OU_NE_US

1.1.5 Click the **Shipment** tab in the Create Advance Shipment Notice window. The Shipment Line Defaults section is displayed.

1.1.6 Type the relevant shipped quantity in the Quantity Shipped field.

- 1.1.7 Click the **Shipment Header** tab. The Shipment Header Defaults section is displayed.
- 1.1.8 Type the relevant shipment number in the Shipment number in the field.
- 1.1.9 Type the relevant shipment date in the Shipment Date in the field.
- 1.1.10 Type the expected receipt date in the Expected Receipt Date in the field.
- 1.1.11 Click the **Submit** button.

The screenshot shows the Oracle iSupplier Portal interface for creating an advance shipment notice. The page title is "Create Advance Shipment Notice". At the top, there are navigation tabs: "Home", "Orders", "Shipments", and "Account". Below this, there are sub-tabs: "Delivery Schedules", "Shipment Notices", "Shipment Schedules", "Receipts", "Returns", "Overdue Receipts", "On-Time Performance", and "Quality". The main content area is divided into two sections: "Shipment Header" and "Shipment Lines". The "Shipment Information" section is highlighted with a red box and contains the following fields:

- * Shipment Number (required field)
- * Shipment Date (required field)
- * Expected Receipt Date (required field) with an example: "Example: 06-Jun-2007 00:17:08"
- Note: Shipment Date cannot be later than today

Below the "Shipment Information" section is the "Freight Information" section, which includes fields for:

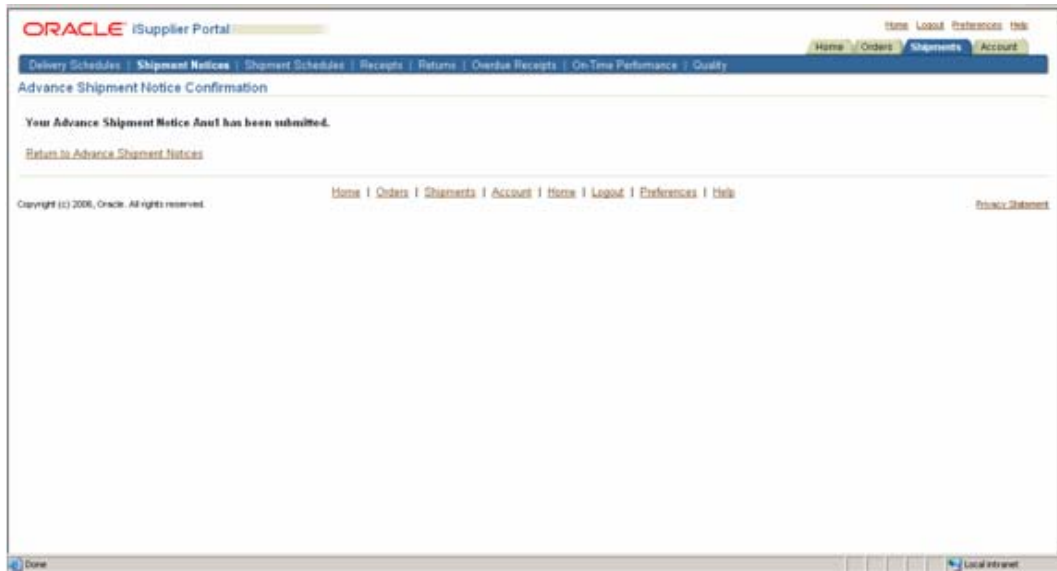

- Freight Terms
- Freight Carrier
- Bill of Lading
- Packing Slip
- Special Handling Code
- Tar Weight UOM
- Net Weight UOM
- Number of Containers
- Waybill/Airbill Number
- Packaging Code
- Tar Weight
- Net Weight
- Comments

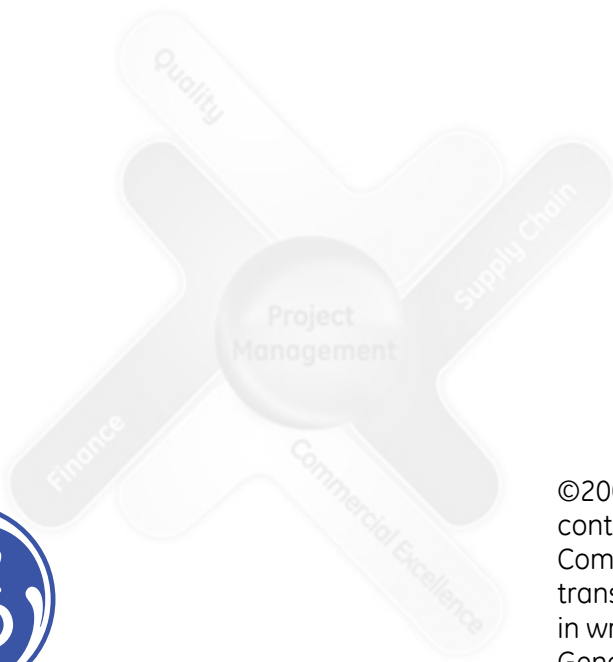

At the bottom of the form, there are buttons for "Cancel", "Add Shipments", "Preview", and "Submit". The "Submit" button is highlighted with a red box.

The Advance Shipment Notice Confirmation window is displayed with a confirmation message.
